Research Handbook On The Theory

The global landscape has changed profoundly over the past decades. As a result, the making of international law and the way we think about it has become more and more diversified. This Research Handbook offers a comprehensive guide to the theory and practice of international lawmaking today. It takes stock at both the conceptual and the empirical levels of the instruments, processes, and actors involved in the making of international law.

Amazon.com: Research Handbook on the Theory and Practice of International Lawmaking Research Handbooks in International Law

Research Handbooks in International Law. This pioneering Research Handbook, with contributions from renowned experts, provides a comprehensive scholarly framework for analyzing the theory and history of international law. Given the multiplication of theoretical approaches over the last three decades, and attendant fragmentation of scholarly efforts, this edited collection presents a useful doctrinal platform that will help academics and students to see the theory and history of ...
